

ADP-1

Adapter cable, to connect a MXN camera and any monitor with (composite) video RCA input.
(4-pin mini DIN female ~ RCA male A/V and 12V DC input)

ADP-2

Adapter cable, to connect any (composite) video source with a MXN camera input terminal.
(4-pin mini DIN male ~ RCA female A/V and 12V DC output)

ADP-5

Adapter cable, to connect a MXN camera with a Waeco/Camos monitor.
(MXN 4-pin mini DIN female ~ 6-pin mini DIN male)

ADP-6

Adapter cable, to connect a Waeco/Camos camera with a MXN monitor.
(MXN 4-pin mini DIN male ~ 6-pin mini DIN female)

ADP-10

Adapter cable, to connect a MXN camera with a MXN monitor.
(waterproof MXN 4-pin mini DIN female ~ MXN 4-pin mini DIN male)

ADP-15

Adapter cable, to connect a MXN camera with an Orlaco cable.
(waterproof MXN 4-pin mini DIN female ~ Orlaco 4-pin male)

ADP-16

Adapter cable, to connect a MXN monitor with an Orlaco cable
(MXN 4-pin mini DIN male ~ Orlaco 4-pin female)

ADP-16W

Adapter cable, to connect an Orlaco camera with MXN cable
(waterproof MXN 4-pin mini DIN male ~ Orlaco 4-pin female)

ADP-18

Adapter cable, to connect a MXN camera (without motorized shutter) with a monitor or cable which has a 4-pin chinese aviation connector. (waterproof MXN 4-pin mini DIN female ~ 4-pin aviation female)

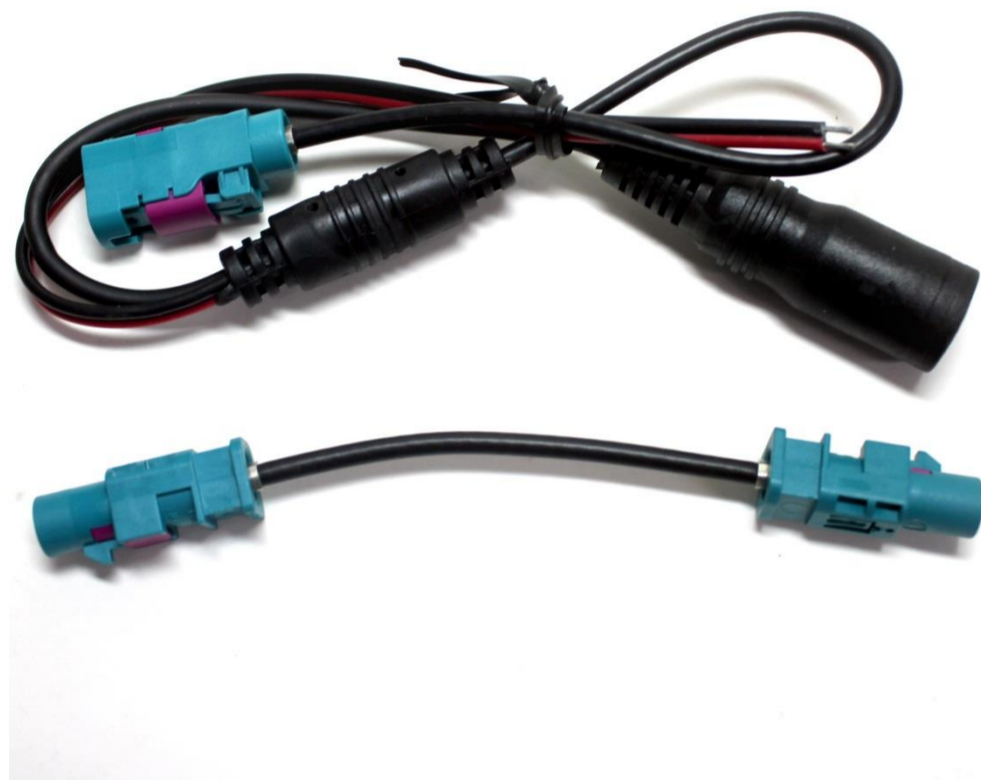

ADP-19

Adapter cable, to connect a MXN monitor with a camera or cable which has a 4-pin chinese aviation connector. (MXN 4-pin mini DIN male ~ 4-pin aviation male)

ADP-22S

Adapter cable, to connect a MXN camera (without motorized shutter) with a monitor which has FAKRA video input. (MXN 4-pin mini DIN female and 12V DC input ~ FAKRA male & female or FAKRA male)

ADP-22SW

Adapter cable, to connect a MXN camera (without motorized shutter) with a monitor which has FAKRA video input. (Waterproof MXN 4-pin mini DIN female and 12V DC input ~ FAKRA female)

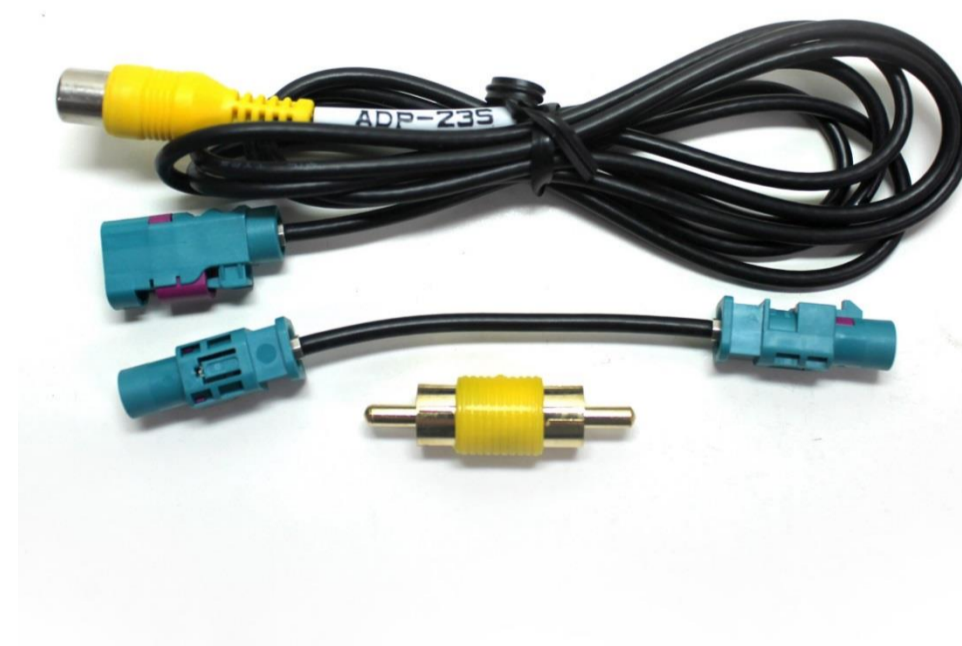

ADP-23

Adapter cable, to connect a Video signal by RCA male or female with a monitor which has Fakra Video input. (RCA male/female ~ 90 degree angled Fakra female or FAKRA male)

ADP-23S

Adapter cable, to connect a Video signal by RCA male or female with a monitor which has Fakra Video input. (RCA male/female ~ Fakra female or FAKRA male)

ADP-30

Adapter, to connect one MXN camera with two MXN monitors. (4-pin mini DIN female ~ MXN 4-pin mini DIN male and IP 4-pin mini DIN male)

ADP-32B

Auto-switch adapter with source detection for two MXN cameras, to be used together with a MXN Trailerset. Model ADP-32B detects whether the CURL-E cable between Tractor & Trailer is connected or not. If connected: CA2 is displayed. In case CURL-E disconnected: CA1 is displayed.

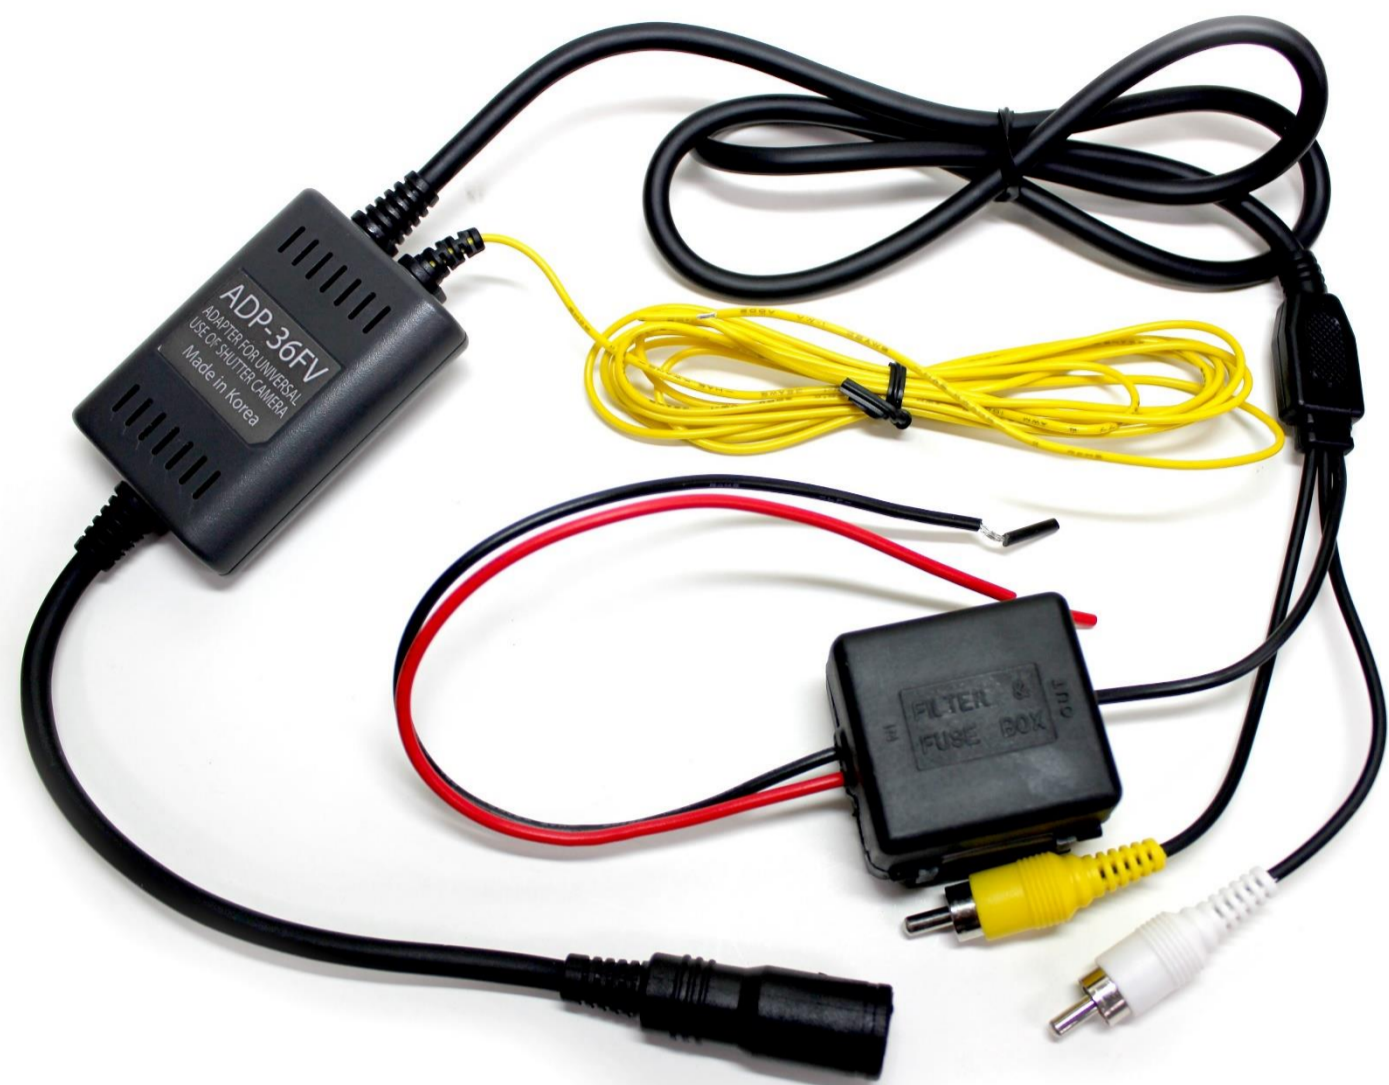

ADP-36FV

Adapter, to connect a MXN motorized shutter camera and any monitor with RCA Input (Composite Video).

The yellow trigger wire is suitable for 12/24V DC.

The motorized shutter opens/closes via the yellow trigger wire.

(4-pin mini DIN female ~ RCA male A/V, 12/24V DC Input & 12/24V DC Trigger)

ADP-39

Adapter, to connect a MXN camera (with or without motorized shutter) with a MAN MMT2 Advanced monitor (Harman).

ADP-39S

Adapter, to connect a MXN camera (with or without motorized shutter) with a Scania Infotainment Premium monitor (AUS4, Harman).

ADP-50

Adapter cable, to connect a Waeco or Camos camera with a MXN cable.

(waterproof MXN 4-pin male ~ waterproof 6-pin female)

ADP-51

Adapter cable, to connect a MXN camera camera (with or without motorized shutter) with a Waeco or Camos cable.

(waterproof MXN 4-pin female ~ waterproof 6-pin male)

ADP-54

Adapter cable to connect a MXN camera with a Waeco cable.
(waterproof MXN 4-pin mini DIN female ~ waterproof Waeco 6-pin male)

ADP-55

Adapter cable to connect a MXN monitor with a Waeco cable.
(MXN 4-pin mini DIN male ~ waterproof Waeco 6-pin female)

ADP-185

Adapter cable, to connect a MXN camera (without motorized shutter) with a monitor or cable which has a 5-pin chinese aviation connector.
(waterproof MXN 4-pin mini DIN female ~ 5-pin aviation female)

ADP-195

Adapter cable, to connect a MXN monitor with a camera or cable which has a 5-pin chinese aviation connector.
(MXN 4-pin mini DIN male ~ 5-pin aviation male)

7P2MHD-F

This cable part can be installed at the towed trailer towards the camera, for those applications where a coiled cable (e.g. CURL-E or CURL-E8M) can not be used.

Total 2 meter length, Heavy Duty Ø8 mm urethane (oil-, heat- and fuel-proof)

The solid 7-pin connector fits in the 1CAMSOCKET-M which should be installed already at the towing/pulling vehicle.

(waterproof MXN 4-pin mini DIN female ~ 7-pin connector)

7P2MHD-M

This cable part can be installed at the towing/pulling vehicle towards the monitor, for those applications where a CURL cable (e.g. CURL-E or CURL-E8M) can not be used.

Total 2 meter length, Heavy Duty Ø8 mm urethane (oil-, heat- and fuel-proof).

The solid 7-pin connector fits in the 1CAMSOCKET-F which should be installed already at the towed trailer.

(waterproof MXN 4-pin mini DIN male ~ 7-pin connector)

7P2MHD-2F

This cable part can be installed at the towed trailer towards the camera, for those applications where a coiled cable (e.g. CURL-E or CURL-E8M) can not be used.

Total 2 meter length, Heavy Duty Ø8 mm urethane (oil-, heat- and fuel-proof)

The solid 7-pin connector fits in the 2CAMSOCKET-M which should be installed already at the towing/pulling vehicle.

(2 x waterproof MXN 4-pin mini DIN female ~ 7-pin connector)

7P2MHD-2M

This cable part can be installed at the towing/pulling vehicle towards the monitor, for those applications where a CURL cable (e.g. CURL-E or CURL-E8M) can not be used.

Total 2 meter length, Heavy Duty Ø8 mm urethane (oil-, heat- and fuel-proof).

The solid 7-pin connector fits in the 2CAMSOCKET-F which should be installed already at the towed trailer.

(2 x waterproof MXN 4-pin mini DIN male ~ 7-pin connector)

ADP-VWT6

Adapter cable, to connect a MXN camera (without motorized shutter) with a monitor which has quadlock male type video input (e.g. Volkswagen Transporter T6 or Mercedes Benz J9P monitor). (MXN 4-pin mini DIN female and 12V DC input ~ quadlock female)

ADP-VWT6SHUT1.5M

Adapter cable, to connect a Video signal by RCA male with a monitor which has quadlock male type video input (e.g. Volkswagen Transporter T6 or Mercedes Benz J9P monitor). If a camera with motorized shutter is required, then this item should be extended with model ADP-36FV. (RCA female ~ quadlock female, total length 150cm)

ADPS7SHUT

Adapter cable, to connect a Video signal by RCA male or female with a monitor which has 3.5mm jack video input (Snooper /Tomtom). (RCA male/female ~ 90 degree angled 3.5mm jack plug)
