

Model : LCOMM927
Compact wideband omni antenna
Varenr:206-999

The LCOMM927 is a compact groundplane independant vertical antenna designed for harsh and maritime environments .
The antenna covers the complete ISM band from 690 - 2700 MHz

Electrical specifications :

Frequency range :	690 - 2700 MHz
VSWR :	< 2,5:1 typically 1,5:1
Impedance :	50 Ω
Gain :	3dBi

Mechanical specifications :

Materials :	Stainless steel 316 , UV resistant ABS
Dimensions :	145 mm
Mounting :	Trough hole M12
Protection :	Silicon o-ring sealing , IP67
Outside treatment :	UV / corrosion protective paint
Connections :	cable 6 m , termination in N-type , SMA , TNC , BNC and reverse .
