

Part no. LP-MC-6BP

FEATURES

The Surge Protector has a built-in gas-charging surge arrestor element which discharges and ground the moment the surge voltage exceeds a specified level. This device assures excellent high frequency characteristics, wide bandwidth, and low loss & VSWR

PERFORMANCE SPECIFICATIONS:

Type	MC-6BP
Connector	NF-NF / NM-NF
Frequency Range	DC-6000MHz
VSWR	<1.2:1
Insertion Loss	<0.6dB
Withstand Power	200W PEP
Discharge Voltage	DC230V±15%
Puls Voltage (1x40) us	1000V
Puls Current (1x40) us	6 KA
Resistance at 100V	>10,000MΩ
Dimensions	68×41×23mm
Weight	140g
