

XG PTT-1 – Extremely rugged push-to-talk unit with great tactile feel for with digital two-way radios

Designed for demanding environments, easy to use Savox XG PTT-1 is a com-control/push-to-talk unit that works with XG headsets and two-way radios.

It offers easy and reliable communication for professionals operating in harsh conditions, and is ideal for those who need to communicate hands-free and/or with their radio secured underneath protective clothing.

When used with helmet-com XG HC-1 and XG HC-2, noise cancelling XG N-H and lightweight, behind the neck or helmet mountable XG L-H headsets, it provides a hands-free way to ensure the efficiency and safety of your operations

Rugged to IP67.

Designed for following uses and industries

KEY BENEFITS

- Adapts your Savox XG headset to your two-way radio via an integrated headset jack
- Large surface PTT (push-to-talk) button secures radio transmission in all situations
- Easy to operate even while wearing heavy duty gloves and other personal protection equipment
- Reliable and durable - dust proof and water submersible to the IP 67 standard
- Slim design
- Large 360 degree rotating clip
- Also available with an emergency button (for use with radios that support this feature)

TECHNICAL DATA

WEIGHT	140g without radio connector cable
OPERATION TEMPERATURE	-40...+85°C
IP67	
SIZE	PTT - 66mm diameter
MATERIAL	Polyamide
FIXING	Via rotating clothing clip
CABLE	According to application
CONNECTORS	Savox QR5 rugged quick release connector for headsets
TEMPERATURE	-40 to +85 oC
SUPPLY VOLTAGE	3.0 to 10.0 Volts DC
HUMIDITY	100% @ +40 oC / 21 Days
INGRESS PROTECTION	IP 67 ESD, EMI IMMUNITY: Conforms to EN 301 489-1 and EN 301 489-18
OPERATIONAL PTT LIFETIME	500,000 cycles
EMERGENCY BUTTON LIFETIME	40,000 cycles
